

## Why Get Pet Insurance?

Veterinary Care is expensive. The better the care, usually the more expensive. For owners who want the best for their pets, that's a lot. And costs continue to increase as medicine becomes more sophisticated. Inflation affects prices through rising costs necessary to provide excellent quality medicine.

Pet Insurance allows Pet Parents to say "Yes" to the more expensive, more sophisticated treatments and diagnostics.

And, every pet, ultimately, will get some disease process or suffer some traumatic event. Some pets are more prone to medical conditions (and some are, yes, more accident prone!). Will you have a savings account ready for those events? Insurance helps when the unexpected happens!

## Pet Insurance for Healthier Pets, Better Care

## Common Dog Medical Conditions

Ailment	Cost/ per episode
Ear Infections*	\$350.00 Often recurrent
Allergies*	\$100/mo
Skin infections*	\$200
Colitis/ Diarrhea	\$250.00
Valley Fever (unique to Arizona dogs)	Diagnosis \$500 Annually \$2000

\* Skin infections, Ear infections and Allergies often occur together.

## Common Cat Medical Conditions

Many people believe that indoor cats are not at risk for medical conditions. While they are safer from trauma, they are still at risk for diseases— usually related to obesity and inactivity.

Ailment	Cost per episode
Pancreatitis*	\$400-1500
Diabetes*	\$1500 initially Avg \$100-200/mo
Renal Failure*	\$1000- \$2000 initially Avg \$100-200/ mo
Hyperthyroidism	Avg \$200.00
Allergies, ear infections	\$300

## The Really Expensive Things

Ailment	Cost/ per episode
GI Foreign Body	\$1500- \$5000
Cruciate Ligament	\$3500- \$5000
Rattlesnake Bite	\$1500- \$3000
Animal Attack/ Bites	\$300-\$2500
Fractured tooth	\$1000- \$2000
Cancer	\$1000 ++

## Which Plan is Best?

There are a lot of different Pet Insurance companies to choose from. Each company offers different coverage for different conditions, different deductibles, different payouts per disease, per lifetime, per incident. There are differing periods of time before insurance will cover a recurrent condition. Many companies won't cover pre-existing conditions or conditions commonly seen in a particular breed. All for different prices per month/ year.

We, at Cimarron recommend getting

- ◆ Accident/ Injury insurance
- ◆ 80% or more Reimbursement (after deductible)
- ◆ For puppies/kittens— coverage for congenital disorders— or at least “undetected” congenital disorders
- ◆ Dental disease coverage (extractions, periodontal treatments, etc)
- ◆ Coverage for knee injuries/Cruciate ruptures— on *both* knees
- ◆ Combine with our In-house Pet Friends Forever Wellness Package, offering discounts on the Wellness/ Preventive Care your pet needs with monthly payments to save money on all the Wellness services insurance doesn't cover. Ask one of our Team for more info!
